

NetWorks

Communication & Networking Assistance Program

*“Servants are Not Greater
Than Their Master,
Nor are Messengers
Greater Than the One
Who Sent Them”*

Net**Works** is an AGAPE program which facilitates communication between those in need and the service organizations that are available to help them. Very often, people are not aware of all the services and opportunities that are available to assist them in times of need. If help already exists, then solutions are already available. You just need to know where to find them.

AGAPE provides a wealth of information & resources on the assistance programs which are available in our area. By building a network of communication between assistance agencies, AGAPE is able to make connections that save time and money for everyone.

AGAPE also provides limited computer access to research additional information that is hard to find or specific to an individual's particular need.

Net**Works** Offers:

- Relevant Information Resources and Databases
- Educational Materials and Internet Access
- Counseling & Instructions on Available Resources
- Training On How to Use the Information Provided
- Follow Up Services to Ensure Compliance
- Anti-Fraud Protection to Prevent Resource Abuse
- Cooperative & Interactive Agency Communications
- A Network of Solutions to Help Solve Problems

This program combines technology with humanity and offers hope to those who are lost & disconnected. Please help us make connections for people in need. Your support today will send a very clear message.

Love From Above To Our Community
