

Store**More**

A Joseph's Warehouse Model Storage Program

*"To Every Thing
There is a Season"*

Store**More** is a program which saves supplies and materials for a rainy day. This program is modeled after Joseph's Biblical storage program which enabled the Egyptians to plan ahead and endure seven years of drought and famine. Our goal is to gather materials and resources ahead of time and be prepared for any foreseeable hardships which may affect our community.

For example, we already know we live in an area which is prone to periodic flooding, so we can build up bottled water and cleaning supplies to prepare for the inevitable.

Store**More** goes well beyond traditional seasonal and annual short-term planning and preparation. We plan ahead in decades to anticipate, as much as possible, how natural disasters or severe economic downturns may affect our community.

The Purpose of Store**More** is to:

- Provide Adequate Resources and Prevent Shortages
- Offer an Immediate Local Response to Assist FEMA
- Coordinate Volunteers With Local Assistance Agencies
- Store and Warehouse Non-Perishables for Later Use
- Provide Model Long-Term Planning for Other Regions
- Respond, Deliver & Replenish Resources as Needed
- Utilize God's Abundance to Serve Local People Wisely
- Provide a Central Location and System for Preparation
- Pull Our Community Together in the Worst of Times

Please aide us in preparation for the worst, and bring out the best in our community. Your support today will help to create a better and brighter future tomorrow.

Love From Above To Our Community
