## Transportation & Logistics Assistance Program

*“He Sent His Only Son”*

Trans**Ports** is a program that provides transportation resources for people and logistical assistance for materials that can be used to help our community. This program exists to solve problems simply by getting people and materials from here to there.

First we provide information and referrals to existing public and private transportation systems which are available for people throughout our region.

Secondly, we offer specialized, or volunteer transportation, where other resources just don't exist or aren't available in a timely manner. For example, if someone needs to get to a job interview, but they just don't have the resources on their own.

Finally, we provide logistical support for materials and resources that can be used for the benefit of others in our community. This ranges from gathering and assembling flood buckets in preparation for natural disasters; to picking up and delivering furniture or appliances which are being donated; or simply storing materials to aide people and assistance agencies throughout our area. Whatever the need, Trans**Ports** attempts to provide realistic transportation and storage solutions.

Trans**Ports** Offers:

- Information On Existing Public Transportation
- Volunteers Who Transport on an As Need Basis
- Warehouse Space for Long and Short-Term Storage
- Logistical Solutions That Benefit Our Community

Please help us to remove any roadblocks and allow this ministry to help as many people as possible.

  
Love From Above To Our Community
